Story

Log Line

A creature who wakes up in a laboratory after an accident is trying to fix his
eye on his butt while battling the hazardous environment.

Short Synopsis

A character wakes up in a laboratory where seems an accident has happened. He looks to his eye which
is now on his butt, then he realizes that he might have lost more than he thinks.

Long Synopsis

A character wakes up in a laboratory where seems an accident has happened. Then he looks to his eye
which is at his butt now. He panics and runs around backwards blindly. He is searching 'the solution'
while he is battling with this messed up and hazardous environment.
